

SRISHTI SOFTWARE Implements PARAS-HIS At MAHAVIR CANCER SANSTHAN

December 13, 2007
Bangalore, India

Publication : *Asian Hospital & Healthcare Management*
Edition : *Online*

Srishti Software Applications Pvt. Ltd., a leading provider of Healthcare Information Management System (HIMS), having its Indian operations based out of Bangalore, today announced that it has implemented PARAS-HIS at Mahavir Cancer Sansthan, a 300-bedded hospital at Patna. Through this implementation Srishti Software has completely automated the Billing, Registration, Wards, Pharmacy, Stores & Labs at Mahavir Cancer Sansthan.

The registration module tracks the revisits of patients and bills them accordingly. The complete investigation, diagnosis rate list has been entered in the database to make the work easier to the person sitting on the counters. Through the automation of Stores, Pharmacy & Wards the entire process has become integrated and the patients are able to move seamlessly within these departments.

"Srishti is delighted to be associated with Mahavir Cancer Sansthan. Srishti carries the know-how and domain expertise in healthcare to be able to provide greater value to its customers." said Ajay Shankar Sharma, CEO, Srishti Software Applications Pvt. Ltd.

"This partnership has enabled our hospital to provide high quality value-based healthcare service to our patients" said Dr. Jeetendra Kumar, Director, Mahavir Cancer Sansthan. "We would like to be associated with Srishti in all our future enhancements" he added.

PARAS HIMS can completely automate any medical institution of any size, quickly and comprehensively. It uses a modular and integrated approach, thus helping healthcare providers deliver the best treatment to patients at the lowest cost. It covers all aspects of day to day running and care provision, and covers crucial aspects of Hospital administration, including Corporate Billing, Lab Investigations, Store Management etc and thus serving patients' interests while ensuring the best possible return on investment.

About Srishti Software
